Blown Away

Tripping Daisy

I'm swimming all around in confusion It takes me for a ride Hearing the bells they're ringing I think I'll run and hide It's crazy what you seem to do Every now and then It's crazy what you seem to do When you're wasting the people And you don't even care

Well It might be you It might be me Dealing with mentality I'm Blown Away

Hearing the bells they're ringing When I try to sleep Fearing the evil minded That prey upon the weak

Well I think about the Boogie Man Every now and then

Well I think about the Boogie Man Whose coming through my door right now

It doesn't have to be that way We can be free if you want to It doesn't have to be that way We can be one if you want to

Every time I look around I think Is there someone staring down at me Everytime I look around I thank The God above for making me the man that I am

It feels like It's foolish everywhere It seems like It's crucial everywhere I never thought I could be stapled By the metal in the gun I never thought I could be stippled By the metal in the gun

It might be you It might be me It might be you I'm Blown Away I'm Blown Away

It might be you It might be you It might be you I'm Blown
