

## Noose

Tripping Daisy

All of the days have been stolen  
The people around me have all spoken  
I am the one slipping and sliding  
When there's a noose looking for you  
YEAH.....HA HA HA YEAH.....

Now that the smoke has all flown away  
The people around me have all floated down stream  
And I am there choking on bubbles..bubbles..  
Bubbles.. bubbles  
When there's a noose looking for you

YEAH.....HA HA HA YEAH..... now that my skin is all frozen  
The ants will eat me tell I'm a carcass..bones still  
Laying in forms as I was chosen

And all at once the noose is you  
It's hard to move when the noose is you  
When all along the noose is you  
There's no more noose looking for you!
