

Stella Is A Planet

Tripping Daisy

She's the melting pot of summer
She's a balloon with a gentle breeze
She can move around in waves of thunder
She is up when your asleep

She's a pretty thing that goes eww wow
She turns me into something neat
She's a little thing that goes eww wow
She can spin you around for free

She is graceful in all weather
She repeats what makes you need
She has moved around the waves of thunder
She makes everything complete

She's a pretty thing that goes oh wow
She turns me into something sweet
She's a little thing that goes eww wow
She can spin you around the weeks

When your gone it seems
You've taken something outta me
For just a little while

Everything is so much better when ewwwww wow
You can knock me off my feet
I feel so much better when ewwwwww wow
Having you makes me believe

Eww wow
Eww wow
Eww wow
