

## A Lover Is Forever

Trisha Yearwood

I think I understand  
The reason you won't stay with me  
You think a ring upon your hand  
will solve you insecurity

So go ahead and play your games  
If that's what you must do  
Nothing here remains the same  
but the way I feel for you

I can watch you walk away  
and I know that I'll get by  
And I know just what to say  
but honey I can't tell a lie

So figure out what you must do  
I know you think you're so damn clever  
You can marry any time you want  
but a lover is forever
