Breathe

Tristan Prettyman

It's a confirmation for your imagination This type of situation goes on and on What to do, how to see When every little thing seems to get in my way

Well I can't breathe And I wish that you couldn't take your eyes off me But it's never easy as it seems, is it? Please, softly before I scream Breathe, breathe, breathe

Say you adore me What good could you be for me And after I'm gone, wondering where you went wrong 'Cause you're only taking inches when I'm giving you miles Did you figure that maybe I wasn't worth your while?

Well I can't breathe And I wish that you couldn't take your eyes off me But it's never easy as it seems, is it? Please, softly before I scream Breathe, breathe, breathe

'Cause where you got me is where you want me Where you had me but you left me And let this go on for so long Got me where you want me Where you had me but you left me And let this go on for so long

And I can't breathe And I wish that you couldn't take your eyes off me But it's never easy as it seems, is it? Please, softly before I scream Breathe, breathe, breathe
