

## Midwintertears

Tristania

Shadowcast upon my heart  
endark... thy bleak midwintertears  
condemned to mourn in silence  
The pale moonrise in her eyes  
Serene... like a frozen stream  
the flowing beauty in thy tears

I crave for thee my once beloved  
Beyond... the veils of darkness lost  
where now thy roses wrapped in dusk

Dark enchantress  
I suffer thy fullmoon nights  
Trespass my undesired darkness

Tears... flowing through thy dreams

Dark enchantress  
the seventh fullmoon rise  
I drown in dusk and dark rivers

Summon all my dreams  
like roses on your epigraph  
written in my tears  
thy sorrow and my bleeding heart

She comes so serene  
my fallen beauty crowned with leaves  
Take me to thy dream  
Thy candle will forever burn in me...
