Boy's Night Out

Droolin' like a dog on a Saturday night I've got a fist full of money And I'm feelin' alright Lookin' for trouble like young boys do I've got a bad reputation and an attitude Ridin' with the devil We're tearin' up this town Hear my motor screaming Let's put the hammer down

It's the boys night out Dogs begin to howl It's the boys night out The dogs are howlin' tonight

Walkin' on the wild side out of control We're a hard act to follow Let the good times roll Better lock up your daughters When we knock on your door You know we love 'em and leave 'em Begging for more Hidin' in the alley Running from the law man's noose There's a full moon risin' The boys are on the loose

Triumph
