

## In the night

## Triumph

In the night, in the darkness  
Love can grow or love will die  
Such a strange situation  
Thought I heard somebody cry  
I found love, inspiration  
We had time, so much to share  
Came the night, came the darkness  
I reached out and she wasn't there

There's a voice in the night  
Cryin' in the night  
Can't you hear it  
Can't you hear it

So much pain, persecution  
Disillusion and despair  
I think I need some consolation  
I think I need someone to care  
All my dreams, gone forever  
I feel them fade  
And drift away  
Now I cry, cry, cry in the darkness  
Can't you hear what I'm tryin' to say

You tell yourself,  
Don't be lonely don't be scared  
An' everything will be alright  
But the darkness comes  
An' then you hear  
All those voices in the night  
In the night

A time will come when you are lonely  
When you get scared and too weak to fight  
Then you will cry, cry, cry in the darkness  
An' you'll be just another  
Voice out in the night
