

Let Me Get Next To You

Triumph

Come on pretty baby
Put your party dress on
Come on won't you rock-it
With me all night long
Can't we lovey-dovey like the
Way we used to do before
That's what I like

Let me take you home tonite
Everything will be alright
Baby, let me get next to you

Don't you try and tell me girl
That I'm not your style,
Come on get to know me
For a little while
Can't we lovey-dovey like the
Way we used to do before
That's what I like

The way you shake and shimmy
Girl you drive me wild
When you touch me girl
You set my soul on fire
Can't we lovey-dovey like the
Way we used to do before
That's what I like
