

Tear The Roof Off

Triumph

Everybody welcome to the show
I gotta message that you oughta know
Stand in the aisles
Stand on the seats
Clap you hands an' stomp your feet
C'mon girl, let's raise some hell
It's a time to scream and it's time to yell

Let's tear the roof off tonite
Tear the roof off tonite
The fuse is ready to light
Tear the roof off tonite

Hey listen, if you got the time
I see a lady she's at least a nine
She's ready to rock, ready to roll
C'mon girl let's lose control
Stick with me an' you'll feel alright
As long as you stay for the show tonite

C'mon baby, shake me up
My head is spinnin' like a top
I got me a rock and roll machine
Let's hear ya shout, hear ya scream
Tell me that you love me like I knew you would
The party here never felt so good
