

What's Another Day Of Rock & Roll

Triumph

We've been five years working in a
Rock and roll band
Blasting heavy metal right
Across the land

I know if we're good
And we see the light
We could tour the U.S.A.
I think we might
Playin' really loud
To overflowin' crowds
Every night
Party with people and rock until
The morning light

It's taken so long
To make it this far
What's another day
Of rock 'n' roll
It's taken so long
To make it this far
What's another day
Of rock 'n' roll

Well, my friends try to tell me
That we're wasting our time
But I'll put our rockin'
Music on the line
We're going to make it big
Just you wait and see
I ain't letting people
Get the better of me
We're going to make
The people get higher
And I know my moment
We got to set the world on fire

Now people got to line
Wherever we go
Trying to get a ticket
To our headline show
We're packing screaming crowds
In right to the door
15,000 people watch them
Yell for more
Now everybody calls us
Trying to get a minute of our time
Well I think it's safe to say
Nowadays we're doing fine
