Leaving This World Behind

Could someone please erase me Take my body from this hell I don't know how it started But I sure know how I fell

We dug our graves real deep Surrounded by our moats Such a shame, oh such a shame Our sins won't help us float

I'm leaving this world behind Making up for all our crimes

I'm leaving this world behind Making up for all our crimes

I'm leaving this world behind Making up for all our crimes

I'm leaving this world behind Making up for all our crimes

I'm leaving this world behind Making up for all our crimes

I'm leaving this world behind Making up for all our crimes

I'm leaving this world behind Making up for all our crimes Trivium
