

## To Believe

Trivium

As the innocent take the punishment  
That was really meant for every one of you  
Claiming unity from the misery  
Bark your right to be wielding your weapons  
Turn the blind eye as the children die  
Lost within the lie, evil defines you  
How can you not dream? I cannot believe  
What has become the land breaks of madness

I can feel it growing inside me  
Something that I would never dare speak  
Containing the anguish it bleeds me  
Unleashing the anger that deeds me

Cannot be cannot be  
The thoughts wont stop I cannot be  
Cannot be cannot be  
The hardest part was to believe

It amuses me that your fantasy  
One has come to be a fear in a nation  
You cry terrorist with a burning fist  
As you assist those that will end us  
Your version of the truth will only benefit you  
If you could only feel the dead all around us  
You have brought it on you're the guilty one  
Now were running from our very extinction

I can feel it growing inside me  
Something that I would never dare speak  
Containing the anguished it bleeds me  
Unleashing the anger that deeds me

Cannot be cannot believe  
The thoughts wont stop I cannot believe  
Cannot be cannot believe  
The hardest part was to believe

I can feel it growing inside me  
Something that I would never dare speak  
Containing the anguished it bleeds me  
Unleashing the anger that deeds me

Cannot be cannot be  
The thoughts wont stop I cannot be  
Cannot be cannot be  
The hardest part was to believe
