

# Watch the World Burn

Trivium

If we all fall down  
We fall before moving wheels  
Crushed between the gears  
If we fall in line  
We see that this path leads straight  
Into the great machine

If we all fall down  
We're swallowed by hopelessness  
Digested by their need  
If we fall in line  
We're cycled through as the blood  
Keeping it alive

I cannot take it anymore  
(I cannot take it anymore)  
I feel it bleed out on the floor  
(I feel it bleed out on the floor)  
You are a lost cause  
(You are a lost cause)  
You are a lost cause

Watch the world burn  
It sets the air on fire  
Watch the world burn  
We are the arson

Watch the world burn  
It sets the air on fire  
Watch the world burn  
We are the arson

If we break their hold  
We open our arms to fight  
Unleashing the light  
If we stand our ground  
We become the enemy  
The revolution sounds

If we break their hold  
We're faced down by everything  
Challenged with a war  
If we stand our ground  
We're sacrificing ourselves  
To save so much more

I cannot take it anymore  
  
(I cannot take it anymore)  
I feel it bleed out on the floor  
(I feel it bleed out on the floor)  
You are a lost cause  
(You are a lost cause)  
You are a lost cause

Watch the world burn  
It sets the air on fire

Watch the world burn  
We are the arson

Holding the breath now  
Don't make a sound  
Don't make a sound

We are the arson  
We burn it down  
We burn it down

I cannot take it anymore  
(I cannot take it anymore)  
I feel it bleed out on the floor  
(I feel it bleed out on the floor)  
You are a lost cause  
(You are a lost cause)  
You are a lost cause

Watch the world burn  
It sets the air on fire  
Watch the world burn  
We are the arson

Watch the world burn  
It sets the air on fire  
Watch the world burn  
We are the arson

We are the arson  
We are the arson  
We are the arson  
Watch the world burn

We are the arson  
We are the arson  
We are the arson  
Watch the world burn
