

I Miss You Already

Trooper

Sometimes there's so much light in my eyes
That I can just barely see
Sometimes it gets so damned lonely
Those lights don't mean nothin' to me

Sometimes it gets so lonely
Sometimes it hurts so bad
My body starts achin'
And I cry 'cause I feel so sad

I miss you already
And I've only just gone
But if I stayed any longer
I could have never moved on

I miss you already
And I've only just gone
But if I stayed any longer
I could have never moved on
I wish I'd never moved on
I shoulda never moved on

Sometimes I get lonely
Sometimes I'm just a little blue
And the blues just come natural
When I'm thinkin' of you

I miss you already
And I've only just gone
But if I stayed any longer
I could have never moved on

I miss you already
And I've only just gone
But if I stayed any longer
I could have never moved on
I wish I'd never moved on
I shoulda never moved on...
