June Haverly, you always get your way but June Haverly, not today, no not today,

you're on top of the world just trynna stay on the track and they'll kiss your feet while they stare your back and watch you started burn to blazin crying

June Haverly, you always got your way but not today, no not today, no not today

June Haverly
you're not to blame
no not to blame
and June Haverly
don't be ashamed
for all the pain

you're on top of the world just trynna stay on the track and they'll kiss your feet while they stare your back and watch you started burn to blazin crying

June Haverly, we miss you so why'd you go oh why'd you go

you're on top of the world just trynna stay on the track and they'll kiss your feet while they stare your back and watch you started burn to blazin crying

June Haverly, we miss you so why'd you go oh why'd you go
