

Calling All Destroyers

Tsar

All the fads and all the kicks
Of a billion years have come to this
On the planet of rock 'n' roll
They're the poppers, they're alright

They've got the stoppers on their side
Oh, maybe supersize, hell yeah!
All over
All over the USA

Destroyers
Destroy, all the world will be
Calling all destroyers
Calling all destroyers

Blue and red for boys and girls
To feed their heads with a taste of the world
The blood of this corporation
We're gonna burn this TV station

Right down!
All over
All over the USA
Destroyers

Destroy, all the world will be
Calling all destroyers
Calling all destroyers
Calling all destroyers, hey!

All over
All over the USA
Destroyers
Destroy!

Destroyers
Calling all destroyers
Calling all destroyers
Destroy

Destroy
Destroy
