

Silver Shifter

Tsar

Slow dive on chemical hill
Slow down, you're making me real
Silver and '79
Shifter and planets align
Silver shifter, shift it out

Glider glider diving down
I will go and you will show
The moon will glow moonlight
On the silver shifter, silver shifter

Seven is never enough
Slide her into the stuff
Slow gun and a colorful flag
Shift her into the swag
Silver shifter, shift it out

Glider glider diving down
I will go and you will show
The moon will glow moonlight
On the silver shifter, silver shifter

Softer down for the counts
Love comes in every ounce
Silver is up for appeal
Shifter is making me real

Silver shifter, shift it out
Glider is tighter, touching down
I will climb and you will find
The moon will shine moonlight
On the silver shifter, silver shifter
