

# Bloodshedding Horror

**Tsjuder**

We arose from the pits of hell  
To wander the earth  
We are the storm of evil  
The strong, the might Tsjuder

Slaughtering, butchering  
We are feared out through the lands  
Murdering, raping  
You will feel the intense pain

Unholy creatures of the night  
Desecrating people of the light

Bloodshedding horror!
