

# Necromancy

Tsjuder

When night falls  
Silence  
It's so silence down there  
I can feel your hunger

You who dwelth down in the unknown realms  
Hear my hollow voice as I call upon thy name  
Through the black shadows of Death  
O' mighty Dead Ones  
Wake up from your funeral rest  
The earth can no longer grant your silence

When night falls  
Mighty storms of damnation  
As I summon my nocturnal power  
The hordes of Death will rise again

You who dwelth down in the unknown realms  
Hear my hollow voice as I call upon thy name  
Through the black shadows of Death  
O' mighty Dead Ones  
Wake up from your funeral rest  
The earth can no longer grant your silence

In the name of the almighty emperor  
I summon you  
And you can now deny me  
For I am one of you as much  
As Death itself
