

# Lemonade

Tsunami Bomb

Look at you now  
Remember how you gave me shit  
and I made lemonade out of it  
Pass me the sugar and things still won't be right  
Look what you've built  
Now are you proud of your deceitful quilt?  
Well I won't cover myself in it  
The warmth has just been choking me

\*Chorus\*

thanks, thanks for nothing  
I've taken all you got and started walking (I'm walking)  
Not broken! Still standing!  
Been ripped apart but now  
I'm demanding  
No more shit  
this is it  
I'm leaving for myself and no one else  
So long!  
Been swell!  
See you in hell!

Now what do you say?  
Can't hear you buried in the lies that you've laid  
I'm breaking myself away from that chain  
Too bad that you don't understand why  
I'm walkin' away  
and if you're lucky then someday I may  
possibly forgive you for all of it  
But not today  
But not today!

\*Chorus\*

Last time now!

\*Chorus\*
