

Don't Kill the Truth

Tublatanka

Don't Kill the Truth
World is different then they told you
it's a sin and got done real
Politicians use they power, and I'm wonder what they feel
They are always lying to the world.

Politicians try to kill you,
every day they wash your brain,
and that day when you don't agree,
they give you ball and chain.

They are always lying to the world

But everything's still in order,
the truth will never die
there is nearby with absolution,
just take it to the grave.

Don't kill the truth,
don't you know, it's the sin,
don't you know that will brill, never die.
Don't kill the truth,
if you just want give up
it will stay in your soul in your mind.

In the end they say it's over,
did you still stay different,
they will bring you to the scamp born
'cos you still don't understand.

They are saying bullshit to the world

But everything's still in order,
the truth will never die
there is nearby with absolution,
just take it to the grave.

Don't kill the truth,
don't you know, it's the sin,
don't you know that will brill, never die.
Don't kill the truth,
if you just want give up
it will stay in your soul in your min
