

In Dogs We Trust

Tuff

They take moms money and they take my name
Detention's calling I'm to blame
I sit and stand for 12 long years
It's not so fun to learn and fear
Herded through that schoolyard
There's 13 stripes and 50 stars
I put my hand on my heart In dogs we trust

Boss mans screaming over time today
I won't say yes and I can't say no way
The electric clock won't let me go
And it's every day I feel this low
Chained to my wooden desk
Who is he to say what's best
I throw my hands in disgust In dogs we trust
I put my hand on my heart In dogs we trust
Gotta kneel to pray I.D.W.T. Nothing left to say

They tell me who and what I'll be
I think I know what's best for me
And you ain't right to lead
In dogs we trust No one rides for free
In dogs we trust I said you ain't right to lead
In dogs we trust Do I need to scream
