

I have a well-groomed lawn
I have a flowered lawn
Tired on Sunday morn
Sleep with no warning
Autumn is coming soon
Sing me that happy tune
Gettting good sleep now
Sweet with no warning

How about work hard
How about sweep the yard
How about looking good
How about talking good
Rock me to rock to night
Cozy & hold me tight
How about walking dog
Hold my hand foggy night

I am no safety here
You people stab me
I walk the metered streets at night
I'm in your city
Come-a come-a get me
They gonna gonna get me
I am no safety here
I am no safety

How about you & me
Child & us make three
Warming when nothing else is right
Warm & warm
I say you're looking nice
We are all looking nice
We are all being nice
And we all look nice

I am no safety here
You people stab me
I walk the metered streets at night
I'm in your city
Come-a come-a get me
I'm in your fucking city
I am no safety here
I am no safety
