

# Time Of Dark

tUnE-yArDs

I know you're carrying me under a blanket of coal  
I feel you carrying me under a blanket of coal

Living in the time of dark  
And I don't dare to look very far  
Young man  
She's just a whisper  
Step too loud, the sound of the ground  
Will just eclipse her

I leave all my doubts behind  
(See through me)  
I'll give up my sight  
I'll tear it out so I can see the signs  
My steps are small  
(See through me)  
Walking blind  
Spinning to the clouds  
Hoping I don't choke on all the truth that they bring

See me over the mountain  
I know you're carrying me under a blanket of coal  
See me over the mountain, yeah  
I know you're carrying me under a blanket of coal  
If you see me to the darkest time  
There'll never be a mountain that I cannot climb  
See me over the mountain  
I know you're carrying me under a blanket of coal

See right through me to the sky  
Down is up and up is down  
A crumble climbing high  
I've met you twice before  
When you put breath in my lungs when my own kin had me gagged  
When you taught me to breathe underwater  
When I had myself drowned

So don't cry  
It's nothing  
(See through me)  
Even in silence  
There are voices who will sing  
(See through me)  
But oh little child  
Understand a single thing  
Your music's in your pocket  
With the power you can even imagine  
It will bring

See me over the mountain  
I know you're carrying me under a blanket of coal  
Won't you see me over this mountain  
I feel you carrying me under a blanket of coal  
If you see me to the darkest time  
There'll never be a mountain I'm not willing to climb  
See me over the mountain  
I know you're carrying me under a blanket of coal

Hey hey hey, hey-o  
(Hey hey hey, hey-o...)

See through me  
See me over this mountain, yeah

Living in the time of dark  
And I don't dare to look very far
