

Into the Void

Turbonegro

Im starin' into the void and feel that tonight is a good night
to climax!

Back on track to nowhere, its over more or less, I wanna see the
credits, say hi to Malcolm x,

Maybe me just one more drink, step back and watch me fail, why
cant this ship just sink, man! drown as my brain derails

Im a runaway train of desire come on have fun break free Choo
choo my brakes with fire get into the hole with me

Ride into the void with us Pure reason has gone bust Plunge i
nto the void with us now (ridin' ridin') Speed into the void wi
th us with us! (ridin' ridin')

Go on speed up full throttle beholder of the light Its the bott
om of the barrel CRASH with a twist of lives More fuel, more he
at, more coal with the iron horse bitch slap We're gettin close
r to the goal now, we're headin for the gap

Im a runaway train of desire come on have fun break free Choo
choo my brakes with fire Get into the hole with me

Ride into the void with us Another soul destroyed, life`s a bus
t Plunge into the void with us now (ridin' ridin') Speed into
the void with us with us Free your flesh (3x)
