Hey, Hank who are you?
Who said that?
Whats with the hat and the cain?
Are you really insane?
Or is it just a game?
Something you ain't
Hey, Hank whats up with the eyes?
Is it just a disguise - you know?
Something you're trying to hide
Something deep inside
So shutup - shutup
Put your denim on and stay free
And get up get up
Shake your leather off and stay free
Hey, Hank what do you want back-off?
Whats up with the cape?
With the ape that you raped?
And your heart full of hate?
Was it worth the steak?
Hey, Hank is it true that you died?
Or is it simply a lie?
That you know you sacrificed a life
To the gods up high
So shutup - shutup
Put your denim on and stay free
And get up get up
Shake your leather off and stay free
So when you see me in my denim dream
You know I play for keeps
You know I'm trying just to keep it clean
Because I'm a freedom machine such a freedom machine
Treasure
So shutup - shutup
Put your denim on and stay free
And get up get up
Shake your leather off and stay free
Gotcha
