

## Keep Me Around

Turin Brakes

You killed the crowd in my head  
With the naysayers dead  
I guess I can finally  
Let go of all my uncertainty  
All pretty words meet their demise

Meet me in the honey of ourselves  
We're one in a billion bullets of love  
We'll ride helpless and happy  
If heaven's the earth, what lies above?

If I am all you found  
An extra arm to wrestle down  
Will you keep me around?

This world is so inexplicable  
Parallel universe ticks out of time  
Guess if the gods have gone crazy  
Then we found the place for us to dive

If I am all you found  
An extra arm to wrestle down  
Will you keep me around?

Oh Keep me around  
Oh Keep me around  
Oh Keep me around  
Oh Keep me around
