

## Mirror

Turin Brakes

This is our life  
A mirror to admire  
A movie on the silver screen  
Kiss me for the credit roll  
This is my face  
A cheekbone to abseil  
As I let you conquer me

Let the universe do its worst  
Devil do your worst  
Black star do your worst

Darling when the rain comes down on us  
It makes a smell like fresh magazines  
And we'll emerge gleaming  
Like diamonds in a gutter full of stones  
Making their way back to the sea

Let this old world do its worst  
Devil do your worst  
Hurricane do your worst

People have extraordinary  
Capacity to care for many  
You need never doubt it's love
