Turin Brakes

I'm in the dark  
I'm in the hurricane  
I'm in the rain  
All over your parade

I act like a friend  
I feel like a brand new start  
But I will break in  
And then I will break your heart

Every single thing you say  
I'll record, I'll replay  
I'm a shadow just behind  
I am with you all of the time  
I am with you all of the time

I an a shark  
I am a razorblade  
And I will destroy  
All of the friends you made

So please let me in  
'Cause i wanna be your friend  
I will cling on  
To you until the end

Every single thing you say  
I'll record, I'll replay  
I'm a shadow just behind  
I am with you all of the time

You may think that you are free  
But you're not, 'cause your with me  
I'm a shadow in that line  
I am with you all of the time  
I am with you all of the time  
I am with you all of the time

Every single thing you say  
I'll record, I'll replay  
I'm a shadow just behind  
I am with you all of the time  
You may think that you are free  
But you're not, 'cause your with me  
I'm a shadow in that line  
I am with you all of the time
