

## My Turn To Win

### Turning Point

Saying goodbye to a false friend isn't hard to do  
Especially after the pain you put me through  
I thought I understood you but I only saw the surface  
Now the plans we made no longer have a purpose  
Now I see trust takes time and can be abused  
One again I see it's me who's going to lose  
When will it be my turn to win  
Every time I try I end up failing, failing again  
I've got to face what I'm leaving behind  
It's my turn to win and it's about time
