Turnover

I know you think that I'm responsible
I know you heard from other people I was doing things
And I know you believe everything you're told
I know it's not your fault
But it's a shame still all the same

Everything that's coming out your mouth I can't take
I can't stop it running through my head
It just makes me want to go away
Drop out of everything I do
And let you keep eating my heart out with your silver

I knew you'd do it like this all along
I thought that I was sure I knew the game that we were playing
'Cause I've been doing this since I was young
But I don't think that we were ever playing in the same way

Everything that's coming out your mouth I can't take
I can't stop it running through my head
It just makes me want to go away
Drop out of everything I do
And let you keep eating my heart out with your silver

Everyone's waiting
They all want to see a show
Everyone's talking
About it but they don't know

Everything that's coming out your mouth I can't take
I can't stop it running through my head
It just makes me want to go away
Drop out of everything I do
And let you keep eating my heart out with your silver spoon
