

Call A Spade a Spade

Turnpike Troubadours

Well you got a ring you got a new last name
You got the same old eyes yea they're the same
all the same
and you got a heart big enough to kill us all
but when you fall
well damn you fall

you got a way
and you've got away with it before
and you got a look
that could drop me dead here on the floor
and you've got a touch
it's the sweetest one i know
but I gotta go
yea I gotta go

Oh and everythings so easy up until it's complicated
til we wake with our heads shaking at the choices we
have made
well to call the whole thing stupid seems so sorely
understated
but can we dance a little longer
can we call a spade a spade

well you gotta try
awful hard to keep it hidden
you got a man (yea I got a man)
And I been acting like a kid
and you've got more
than a tattoo up your sleeve
it's time to leave yea it's time to leave

Oh and everythings so easy up until it's complicated
til we wake with our heads shaking at the choices we
have made
well to call the whole thing stupid seems so sorely
understated
but can we dance a little longer
can we call a spade a spade

i gotta quit
yea darlin I guess I do to
Take a hint (oh take a hint)
It's high time we get a clue
and darlin please (oh please)
Could you stop sayin' love
This ain't love (no this ain't love)
Good god above

Oh and everythings so easy up until it's complicated
til we wake with our heads shaking at the choices we
have made
well to call the whole thing stupid seems so sorely
understated
but can we dance a little longer
can we call a spade a spade
