

## Come November

Turnpike Troubadours

I'm learning how to live off nothing  
Lord knows I've done it before  
Late nights and early mornings  
Waking up on a motel floor  
Got some food and got some rest  
With some new folks we met  
Make you feel right at home  
Make you feel like you never left  
And most of the moneys spent  
Lord I wish I knew where it went  
Put my last quarter in a payphone making this call  
I know it's rough but just remember  
I'll be home come November  
Been running like hell  
But it looks like time to crawl  
See you in the fall if I see you at all  
Going home with my hands dirty  
Seen those hard working days  
With empty pockets just like now  
Trying to get by and turn a face  
But I gave up the 9 to 5  
Gave up on security  
Give up on anything darling  
As long as you don't give up on me  
And most of the moneys spent  
Lord I wish I knew where it went  
Put my last quarter in a payphone making this call  
I know it's rough but just remember  
I'll be home come November  
Been running like hell  
But it looks like time to crawl  
See you in the fall if I see you at all  
Started two night stands tomorrow night then on to Arkansas  
And all this time to think  
Will drive a man to drink  
Just beating all our heads against this wall  
And most of the moneys spent  
Lord I wish I knew where it went  
Put my last quarter in a payphone making this call  
I know it's rough but just remember  
I'll be home come November  
Been running like hell  
But it looks like time to crawl  
See you in the fall if I see you at all
