

## Some Guys

Tuxedomoon

How many guys like me  
All through history  
How many girls like you

Some guys kiss and tell  
Love you and leave you  
Bring you up take you down  
But I don't care

Lonely days in the sun  
Friends don't call  
I watch the light on the wall

Lonelier nights  
I sleep with my sweat  
But I don't care

My heart remains the same the same  
Inside my heart remains the same  
Mon coeur reste toujours le meme

London to Paris  
Amsterdam to Berlin  
Walking the same streets  
Thinking the same Thoughts  
Walk down Wardour  
To Saint-Germain

One big lonely city  
But I don't care  
one big Eurocity  
But I don't care

My heart remains the same the same  
Inside my heart remains the same  
Mon coeur reste toujours le meme

I was looking for him  
And she came to me  
I was looking for him  
But she came to me  
I was cruising my decay  
Where the trams  
Connect
