Some Guys

Tuxedomoon

How many guys like me All through history How many girls like you

Some guys kiss and tell Love you and leave you Bring you up take you down But I don't care

Lonely days in the sun Friends don't call I watch the light on the wall

Lonelier nights
I sleep with my sweat
But I don't care

My heart remains the same the same Inside my heart remains the same Mon coeur reste toujours le meme

London to Paris
Amsterdam to Berlin
Walking the same streets
Thinking the same Thoughts
Walk down Wardour
To Saint-Germain

One big lonely city
But I don't care
one big Eurocity
But I don't care

My heart remains the same the same Inside my heart remains the same Mon coeur reste toujours le meme

I was looking for him
And she came to me
I was looking for him
But she came to me
I was cruising my decay
Where the trams
