

Careful You

TV on the Radio

Oui je t'aime, oui je t'aime
À demain, à la prochaine
I know it's best to say goodbye
But I can't seem to move away

Not to say, not to say
That you shouldn't share the blame
There is a softness to your touch
There is a wonder to your ways

Don't know how I feel, what's the deal?
Is it real? When's it gonna go down?
Can we talk? Can we not?
Well, I'm here, won't you tell me right now?
And I'll care for you, oh, careful you
Don't know, should we stay? Should we go?
Should we back it up and turn it around?
Take the good with the bad
Still believe we can make it somehow
I will care for you, oh, careful you, careful you

Oui je t'aime, oui je t'aime
From the cradle to the grave
You've done a number on my heart
And things will never be the same

Freeze a frame, freeze a frame
From a fever dream of days
We learned the secret of a kiss
And how it melts away all pain

(2x)

Don't know how I feel, what's the deal?
Is it real? When's it gonna go down?
Can we talk? Can we not?
Well, I'm here, won't you tell me right now?
And I'll care for you, oh, careful you
Don't know, should we stay? Should we go?
Should we back it up and turn it around?
Take the good with the bad
Still believe we can make it somehow
I will care for you, oh, careful you, careful you
