## TV on the Radio

Trouble ahead of its time  
Is the fate of the fish washed up on shore  
Do you know that he just won't feel right  
Till he's swallowed up by the tide  
Thought it might know better

Born into capital lifestyle heights  
Got a head full of fever and it feels all right  
Cause I shake my bottle and I suck my swill  
And I love how I'm living cause I've got my fill  
But I can't stop thinking how it's all gone wrong  
And the cracks will be obvious before too long

I've abused my position and it cost my friends  
And if the world keeps turning I could do it again

What's the matter with your next-door neighbour  
I heard he had sex, drugs and danger  
You can kick it with a complete stranger  
I think I hear him calling

What's the matter with your next-door neighbour  
An act of man, a freak of nature  
You've been kicking with a complete stranger  
I think I hear him calling

And the time on your hands is a walk in the park  
If it don't then I hope you can see in the dark (real hard)  
Hail Mary, watch your life unfold  
I'm a man on a mission or so I've been told

I can choose my victims, I could shed my skin  
And if the world keeps turning I could do it again  
But I can't stop thinking that it's all gone wrong  
And the truth will be obvious before too long

I've abused my position and it cost my friends  
If the world keeps turning I'mma do it again

What's the matter with your next-door neighbour  
I heard he had sex, drugs and danger  
But you can kick it with a complete stranger  
I think I hear him calling

What's the matter with your next-door neighbour  
An act of god, a freak of nature  
You've been kicking with a complete stranger  
I think the curtain's falling down

We lock eyes and walk away unrecognised  
We lock arms and spin
