

## Will Do

### TV on the Radio

It might be impractical  
To seek out a new romance  
We won't know the actual  
If we never take the chance  
I'd love to collapse with you  
And ease you against this song  
I think we're compatible  
I see that you think I'm wrong

But anytime will do  
My love  
Anytime will do  
No choice of words will break me from this rule  
Anytime will do  
My love  
Anytime will do  
What choice of words will take me back to you

Your love makes a fool of you  
You can't seem to understand  
Our heart doesn't play by rules  
And love has it's own demands  
But I'll be there to take care of you  
If ever you should decide  
But you don't want to waste your life  
In the middle of a lovesick lullaby

Anytime will do  
My love  
Anytime will do  
No choice of words will break me from this rule  
Anytime will do  
My love  
Anytime will do  
What choice of words will take me back to you

Oh my reddest rose, caldera, set it off  
How your fire grows hermosa caldera glistening  
Through your fussed blows careen your caldera set it off  
As your body flows the second hand flashes passes  
Over your skin like time

Anytime will do  
My love  
Anytime will do  
My love  
Anytime will do  
My love  
Anytime will do  
My love  
Anytime will do  
No choice of words will break me from this rule  
Anytime will do  
No choice of words will break me from this rule  
Anytime will do  
No choice of words will break me from this rule  
Anytime will do

No choice of words will break me from this rule  
Anytime will do  
What choice of words will take me back to you
