

Call Me

Tweet

Shake it, Shake it
Shake it, Shake it
Shake it, Shake it
Bounce, Bounce
Bounce, Bounce
Baby you the man
Cause you put it on me
And in the morning
I roll over and feel you touching on me
I got another man
But he ain't like you
And I cant be your baby mama
Though I'd like to
C-C-C-C-Call me real late at night
When my man's asleep
And take a red eye
To the west side up and down my spine
And let you feel what you've been missing
I'm so bonafide
Call me
Ooo, when you need me
Baby, you dont have to worry
Call me
We can do something
Call me
Ooo, when you need me
Baby, you dont have to worry
Call me
We can do something
Baby, take my hand
When you're feeling lonely
It don't matter where you're at
Just let me put it on you
I got another man
But he aint like you
And I cant be your baby mother
Though I'd like to
C-C-C-C-Call me at the break of dawn
I'll be sure to meet you with no panties on
We can slip and slide
We can take a ride
And feel the love that you've been missin
I'm so bonafide
Call me
Ooo, when you need me
Baby, you dont have to worry
Call me
We can do something
Call me
Ooo, when you need me
Baby, you dont have to worry
Call me
We can do something
You can call me
You can call me
Call me
Call me

Ooo, when you need me
Baby, you dont have to worry
Call me
We can do something
Call me
Ooo, when you need me
Baby, you dont have to worry
Call me
We can do something
