Heaven

Rain is gone I feel the wind
The bright started shining in
A new life of love has come through
Wish I had the words to describe
A wind of feelings I feel so alive
Let me tell you what I gained sense leaving you

Feels just like heaven and a sunny day
Definitely heaven and a sunny day
Feels just like heaven and a sunny day
Basically heaven and a sunny day

No more breathing down my back
Not too sure how to act
Or even waiting for you to say I love you
I'll kiss myself and say a prayer
To feel the void you left when you were here
Loving me means more than losing you

Chorus twice

Oh I am in heaven repeat 4

I remember the day can't forget the hour you left
I remember the day can't forget the hour you left

Feels just like heaven
Definitely heaven
Feels just like heaven
Oh I'm in heaven
Basically heaven
Feels just like
Oh I'm in heaven
Definitely
Oh I'm in heaven
feels just like
heaven
