

Smoking Cigarettes

Tweet

Why, oh why
Gave you several years of my life
And it just ain't right
What's your perception of love
Now, how many times did we say it was over
And how many times did we not leave
There's no sense in this love hangover
Please come back to me
Cuz I can't forget your ways
I still remember our first kiss
I'm nervous and tremblin'
Smoking cigarettes at night
Wondering where you been
Smoking cigarettes at night
I can't cope with this
Smoking cigarettes at night
Your the one to help me quit
Smoking cigarettes at night
In the midnight hour
Late midnight hour
I see the etch of yo face
And it makes it hard for me to breathe
What can I do to chnage your decision
Please work with me (me, me)
Sometimes my eyes won't close from weepin'
And sometimes I can't wake up from sleepin' (why)
Cuz you keep callin' me, keep callin' me in my dreams
I can't forget your ways
I still remember our first kiss
You got me nervous and tremblin'
Smoking cigarettes at night
Wondering where you been
Smoking cigarettes at night
I can't cope with this
Smoking cigarettes at night
Your the one to help me quit
Smoking cigarettes at night
No more Winston's, Salem's, Marlboro Lights
Don't matter what the kind is
Cause you got me smoking out on you
Got me puffin' 'bout a pack a night
And I know it ain't healthy
Nervous and tremblin'
Smoking cigarettes at night
Wondering where you been
Smoking cigarettes at night
I can't cope with this
Smoking cigarettes at night
Your the one to help me quit
Smoking cigarettes at night
Nervous and tremblin'
Smoking cigarettes at night
I'm nervous and tremblin'
Wondering where you been
Smoking cigarettes at night
I can't cope with this
Smoking cigarettes at night

Smokin'
Your the one to help me quit
Smoking cigarettes at night
No it ain't healthy
Smokin'
Gotta quit
Your the only one
