

Silent Machine

Twelve Foot Ninja

I don't think I've seen anything like this. (like this).
I don't think I've seen anything like this.

When the lights go down, you can turn to us
When it all comes down, you can turn to us
And still you will run, oh how you run
When the lights

When the lights go down
You can turn to us
And in the final days
What's lost will be reclaimed
When it all comes down
You can turn to us
And in the final days
We'll reconcile the pain

I don't think I've seen anything like this. (like this).
I don't think I've seen anything like this.

When the lights go down, you can turn to us
When it all comes down, you can turn to us
And still you will run, oh how you run
When the lights

(You'll be the one
You'll find the sun
Transfix this heart
Return to start
The end is nigh
The moon is high
A thousand eyes
A cage of light
The darkness moves
Concious improves
Nothing was seen
Silent machine)
