

# Angel

Twenty 4 Seven

I saw a star. It was an angel  
A shining star, a pretty angel

Dance while the record stands

I met an angel, she was so bright and clear  
A shining star, I wish that she was near  
I saw the universe and all that I could do  
Was lying back and open up to you  
Now when I walk on the streets  
I can feel you are there  
Ain't nothing better than an angel, that's everywhere  
I can't sleep, can't talk, can't do anything  
Because you got me in a spell, mysterious ring  
I met an angel

I saw a star. It was an angel  
A shining star, a pretty angel
