

Take Your Chance

Twenty 4 Seven

Come on & dance, take your chance
Come on & dance, take your chance

Move on, da c is on da block
And I'm goin' straight 2 da top
Killin' dancefloors & all of that
Swallow up da rhyme & u gonna git
Just a piece of my brain that's da deal y'all
Don't 4git u gotta call
Close your i's a while & wait a sec
And Let's go back, hit it!

Come on & dance, take your chance
Come on & dance, take your chance

Listen up and don't stop 'till I stop
Inhale da words I'm gonna drop
Da time 2 live like a fool's in da past
Think 4 real if u wanna last
It can b tough we all know that
U can win & loose that's da bet
But da result of this can b changed somehow
Do it now

Come on & dance, take your chance
Come on & dance, take your chance
