

# The Hype

Twenty One Pilots

Sometimes I feel cold, even paralyzed  
My interior world needs to sanitize  
I've got to step through or I'll dissipate  
I'll record my step through for my basement tapes

Nice to know my kind will be on my side  
I don't believe the hype  
And you know you're a terrible sight  
But you'll be just fine  
Just don't believe the hype

Yeah, they might be talking behind your head  
Your exterior world can step off instead  
It might take some friends and a warmer shirt  
But you don't get thick skin without getting burnt

Nice to know my kind will be on my side  
I don't believe the hype  
And you know you're a terrible sight  
But you'll be just fine  
Just don't believe the hype

No, I don't know which way I'm going  
But I can hear my way around  
No, I don't know which way I'm going  
But I can hear my way around  
No, I don't know which way I'm going  
But I can hear my way around  
No, I don't know which way I'm going  
But I can hear my way around  
But I can hear my way around

Nice to know my kind will be on my side  
I don't believe the hype  
And you know you're a terrible sight  
But you'll be just fine  
Just don't believe the hype (don't believe the hype)  
Nice to know my kind will be on my side  
I don't believe the hype  
And you know you're a terrible sight  
But you'll be just fine  
Just don't believe the hype  
Nice to know my kind will be on my side  
I don't believe the hype  
And you know you're a terrible sight  
But you'll be just fine  
Just don't believe the hype
