

## I'm Still Alive

TWiiNS

Now nothing can touch me  
I've seen what I can be  
Lonely I've walked through the fire  
But I'm Still Alive

Now nothing can touch me  
I've seen what I can be  
Lonely I've walked through the fire  
I'm Still Alive

Would ya climb up the mountain  
Would ya battle the ocean  
Would ya give just to loose it all  
I've been living my life and  
Try to learn ever lesson  
Now I see why I fight and I fall

When the roads not to wide  
Then trust the heart never lies

Now nothing can touch me  
I've seen what I can be  
Lonely I've walked through the fire  
But I'm Still Alive  
I'm Still Alive

If ya lost all the meanin'  
No more truth to believe in  
Would the light inside fade to grey  
But if ya shine like a diamond  
Don't get caught in the moment  
Never letting your breath slip away

When the roads not to wide  
Then trust the heart never lies

Now nothing can touch me  
I've seen what I can be  
Lonely I've walked through the fire  
But I'm Still Alive  
I'm Still Alive
