

Please baby no don't leave me now
I need you in my life
We can work it out somehow
Please baby no I don't wanna let you go
I can't imagine losing you
So please baby no

My days are always filled with sadness
I don't know what is going on
I'm so confused let's talk about this
I don't care who is right or wrong
I know you wanna take your love away
Leave this relationship behind
You told me that I was the one for you
So why the sudden change of mind
You say loving me ain't the same
You say kissing me ain't the same
You say you and I lost the flame
Just once more baby please say my name

I ask myself almost everyday
Why you've been with me all along
Baby don't let this love slip away
Right here with me is where you belong
What can I do to make you love me again
I'll do whatever you need
Remember me is your perfect ten
Baby don't leave you make my heart bleed

Tell me, tell me why did you brake my heart
Tore my world apart
You gotta something I need to know
Tell me, tell me why did you let me go
When you promised me your heart and soul
