

Slip Of The Tongue

TWiiNS

Everybody at the party's down with a groove
I can see you checking out my every move
On the floor you want more
I'm intrigued what you seek to explore
It's getting hot and heavy I can baby feel the blaze
My head is spinning as you're reaching second base
Guess how far can you get stay right there
I'm out of breath need some air

Back at the scene
I was only gone a minute
This is just mean
Even I have got my limits
In front of my eyes
Dirty game you play
Now that I have got your number what you gonna say

O-o you said
You didn't mean it
O-o I just can't believe it
O-o you kissed another one
O-o yeah right
Slip of the tongue

Stop explainin I'm not waiting
You can talk to my hand
It was very entertaining
But we reach the end
Now get lost in the crowd
Save your breath we never met cut it out
