

# Faithful Father

Twila Paris

Once in a while my heart gets lonely  
Once in a while when night is blue  
Time and again, You are the only one  
I can hold on to

There never is a moment when  
You leave my side  
I felt Your arms around me  
Every time I cried, all my life

You have been a faithful Father  
I believe Your word is true  
You have been a faithful Father  
I will follow You, You, You, You

There was a fear inside my anger  
I wasn't sure if You were there  
Great love would prove You are the answer to  
Any honest prayer

The vessel that is empty  
You will come and fill  
You promise to complete me and  
I know You will, I know You will

You have been a faithful Father  
I believe Your word is true  
You have been a faithful Father  
I will follow You

Wherever You lead me  
You, the passion that freed me  
You, whenever You call  
Whatever You say

You have been a faithful Father  
I believe Your word is true  
You have been a faithful Father  
I will follow You, You

You have been a faithful Father  
I will follow You

Once in a while my heart gets lonely  
Once in a while the night is blue  
Time and again You are the only one
